## **DETAILED ACTION**

### ***Information Disclosure Statement***

The information disclosure statement filed August 4, 2005 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. A statement of relevance is lacking for each of DE (29810333) and DE (10027063). Each of these documents has been placed in the application file, but the information referred to therein has not been considered. All other cited documents have been considered.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which

Art Unit: 3636

applicant regards as the invention. In claim 1, it cannot be determined if Applicant intends to positively claim the combination of a vehicle seat assembly and a floor tub within a vehicle floor, or the subcombination of a vehicle seat assembly for use with a floor tub within a vehicle floor. Lines 1 to 2 appear to set forth the subcombination. Note the recitation of a "vehicle seat assembly for storage in a floor tub within a vehicle floor". Lines 18 to 19 appear to set forth the combination. Note that the medial seat axis of the vehicle seat assembly is recited as "being laterally off-set from the central tub axis when said seat frame is in said mounted configuration". It is suggested that Applicant include appropriate "adapted to" or "adapted for" type recitations in order to clarify. Similarly note lines 21 to 22 where the medial seat axis of the vehicle seat assembly is recited as "being in substantial alignment with said central tub axis when said seat frame is in said mounted configuration". Similarly note claims 6 and 7. All remaining claims are indefinite since each depends from an indefinite claim.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-4, as best understood with the above cited indefiniteness, are rejected under 35 U.S.C. 102(e) as being anticipated by WO (2004/026620). Note the seat frame (12), mounting means (30-33, 26), lateral translation means (222 and associated connections), lateral first pivot axis (at 31), lateral second pivot axis (at 26), and link member (222). Also note the different orientations of the seating assembly in Figure 2.

#### ***Allowable Subject Matter***

Claims 5-21 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

#### ***Response to Amendment/Arguments***

Applicant's response filed August 4, 2005 has been fully considered. Remaining issues are described in the above sections.

#### ***Conclusion***

Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on August 4, 2005 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609.04(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
